Career Objective

Aspiring to take up challenges and face difficulties that can establish my IT skills. And to get opportunity in a reputed firm to increase my intelligence, learn new advancement in IT sector and secure good career.

Highlights

1. Entry Level Skill in Python, Statistical Data Analysis, Machine Learning Algorithms
2. Good knowledge and working experience in SQL, MS Office
3. Problem solving and leadership skills
4. Self-motivated and go getter attitude

Willing to relocate: Anywhere

Education

Bachelor's in B.E Computer Technology
Rashtrasant Tukdoji Maharaj Nagpur University - Nagpur, Maharashtra 2015-07 - 2019-06
Karamaveer Dadasaheb Kannamvar College of Engineering
Percentage – 63.00%, C.G.PA – 6.9

Higher Secondary (12th Pass) in Science
Maharashtra State Board of Secondary and Higher Secondary Education 2013-08 - 2015-05
Shri Niketan Jr College
Percentage – 67.00%

Secondary (10th Pass)
Central Board of Secondary Education 2012-04 - 2013-05
Mont Fort School - Nagpur, Maharashtra
Percentage – 72.00%

Skills / IT Skills

- **Web Development : -** HTML, CSS, Bootstrap, Flask
- **Programming Languages: -** C, PYTHON (Numpy, Pandas, Matplotlib, Plotly), Basic - Java
- **Analytics : -** IPython , MYSQL ,MS- Office
- **Graphics Designing: -** Adobe Illustrator

Certifications and Licenses

Data Science 2020-02 - Present
Certification for attending 2 months data science course sponsored by Maharashtra Government.

Data Science Training

- **Programming : Python (with library numpy, pandas)**
  - **Data Visualization :** Matpoltlib, Seaborn ,Plotly
  - **Statistical Analysis :** Probability, Probability Distribution, Data Analysis

- **Machine Learning :**
  - **Supervised Learning :** Linear/logistic Regression, SVM, Naïve Baise, kNN, Decision Tree, Random Forest
  - **Unsupervised Learning :** Clustering, Recommendation system
  - **Natural Language Processing :** TF-IDF, Text processing, Sentiment Analysis

60 Days Training Program on Data Science

Work Experience

Final Year project :

Title: INDUSTRIAL ENERGY AUDIT AND STATISTICAL ANALYSIS

Description: This project helps an organization to monitor over the hourly consumption of electricity.
Duration: 6 months
Team Members: 4 (including me).

Learnings:
Through this I learned how important it is monitor the energy consumption and to minimize the consumption.
We created a Dashboard for the company so they can analyze the electricity consumption respective to hourly, daily, monthly or yearly requirements.

Data Science project:

1. Movie Recommendation System using truncated SVD and SGD .
2. Donor Choose Assingment using Naive Bayes and Random Forest.
3. Document Classification with CNN.

Internship

1. BSNL 2 weeks Internship on Networking.
2. Anvi Infotech 6 Months Internship on home automation.

Core Competencies

- Good computer knowledge of using MS Office (MS Word/ PowerPoint/ Excel).
- Quick learner with the ability to grasp new technologies and capable of working in-groups as well as an individual contributor.
- Good interpersonal, coordination skills and Leadership quality.
- Have necessary aptitude to work in challenging projects with stringent timeliness. Ability to plan, prioritize and work across various domains.

Languages Known

1. English - Read , Write , Speak
2. Hindi - Read , Write , Speak
3. Marathi - Read , Write , Speak
